## ARPA

Designed by Ramón Esteve

INDOOR AND OUTDOOR SOFA, ARMCHAIR AND SIDE TABLE

As its name implies, ARPA Collection is inspired by the harp, one of the most beautiful and mesmerizing musical instruments. Unlike the meticulous work involved in manufacturing a harp, in designing this collection, rigorous paring down was applied, resolving each piece with the least possible number of elements.

ARPA collection combines the stability of the orthogonal external shape with the softness and comfort of the inner cushion shell. The thin strings add elegance and fineness to every piece, giving a special sense of lightness, as if the whole cushion mass was hanging from the structure.

Designed to be timeless, ARPA aims to become an icon, not only for aesthetical reasons, but also for its functionality and comfort.

## STRUCTURE

Backrest and seat loadbearing structure in stainless steel, 2 x 2 cm section, epoxy powder coated using specific treatment for outdoor use. The seat frame has elastic straps, specifically for outdoor use.

The backrest frame is woven by hand using high tensile polyester cord, in mass pigmented colour, able to guarantee high resistance to weather, abrasion, limited elongation, and colour fastness. The seats are made with original, exclusive weaving.

The structure of the side table is the same of the armchair/sofa. Top made of fine porcelain stoneware laminate, matt variations in light grey calce or black calce.

Bush hammered medium grey pietra di Savoia, and natural satin-finished corten.

Arpa collection is available in a range of four colours.

### CUSHIONS AND COVERING

The back and seat cushions are made of Dryfeel (draining polyurethane) of varied densities, wrapped in siliconed hollow fibre bound in polyester, that will not rot, does not cause suffocation, and is antibacterial, while the final cover is in 100% polyester Tecnostrong.

This particular composition of the cushion gives the padding natural softness and elasticity, a long lifespan and great comfort. The upholstery fabric is completely removable.

### OUTDOOR COVERING TARPAULIN

Protective tarpaulin specifically for outdoor products, waterproof, made of 100% polyester, outside with acrylic coating, inside with acrylic resin coating.

Its characteristics are emphasised by its fully fungicidal Teflon finish. Each tarpaulin comes with a closable slip cover, so that it can be folded and kept correctly when not in use.

## OUTDOOR USE

All the variants available, are perfect in both indoor and outdoor environments.
