

MINIMA 3.0

(Designer Bruno Fattorini & Partners)

Minima 3.0: three stands for the three key elements that compose the system: shelf, frame, cabinets.

Essential and flexible, Minima 3.0 represents the natural makeover of Minima, MDF Italia collection's icon product, special mention at the XVII Compasso D'Oro ADI in 1998. Technology and innovation have enabled this thin aluminium structure that is 15 mm thick only, to propose an increasingly minimal yet strong identity. The considerable span of the shelf in extruded aluminium combined with the joining system, have allowed to develop the system in length, making it modern and adjustable to any kind of environment: home, office, community areas, contract....

Modular and flexible even thanks to the new kinds of storage units.

This can be with open, door, flap opening doors or drawers. They are simply resting inside the structure and are repositionable quite easily, thus allowing to meet any storage requirements as desired and to choose your own style of living by using different colours, woods and shapes.

Black or white, lacquered or in wood, essential or multicoloured, linear or monolithic, these are Minima's many variables, a real modular structure archetype.

Structure

Uprights and shelves made of extruded aluminium and assembled together by using a concealed joining system, capable of giving the structure stability and a special resistance to loads.

Finish: matt lacquered in white and graphite grey.

Typology

Available in the free-standing and hanging variants, always with a 33 cm depth.

Frame in aluminium, section 1.5x1.5 cm, shelf 1.5 cm thick, available in the nominal lengths 60, 90 and 120 cm.

The end frames are equipped with an extruded aluminium pressure cap.

Minima 3.0 in the free-standing version comes in 6 heights: 42.5 cm, 79 cm, 115.5 cm, 152 cm, 188.5 cm and 225 cm; the first shelf is placed at 4.2 cm from the ground, while the uprights are equipped with adjustable feet in aluminium with a +/- 1.5 cm tolerance.

Inner height of compartments is 35 cm.

Minima 3.0 in the hanging version comes in four heights: 38 cm, 74.5 cm, 110 cm and 147.5 cm. Inner height of compartments is 35 cm.

Minima 3.0 is entirely made of 100% recyclable aluminium.

Cabinets

Elements made of MD-wood fibreboards, available in matt lacquered micro-goffered finish or in wood. They can be used in both the free-standing and in the hanging versions and rest inside the structure.

Available in the nominal lengths: 30, 60, 90 cm, height 35 cm and depth 33 cm, they are divided into the following categories:

- **Open units L30 cm:**
in MD- wood fibreboard, 8 mm thick, available in the matt lacquered micro-goffered finish in the following colour options: white, orange, avio blue, mustard yellow, green, dark red as well as in the natural wood variant, natural grey wood and natural black wood.
- **Open units with partition L30 cm:**
in MD- wood fibreboard, 8 mm thick, available in the natural wood variant, natural grey wood and natural black wood.
- **Units with flap opening door L60 and L90 cm:**
in MD- wood fibreboard, with variable thickness, available in the matt white lacquered micro-goffered finish as well

as in the natural black wood variant. Door equipped with downward compass opening, with retractable mechanism with a stainless steel cable, shock-absorbing system, adjustable in intensity and strength in the closing and opening phases.

- **Units with door L60 and L90 cm:**

In MD wood fibreboard, with variable thickness, available in the matt white lacquered micro-goffered finish as well as in the natural black wood variant. Door equipped with upward compass opening, with multi-position stop mechanism and braking function. This allows to keep the door in any opening position with a noiseless and gentle movement while closing.

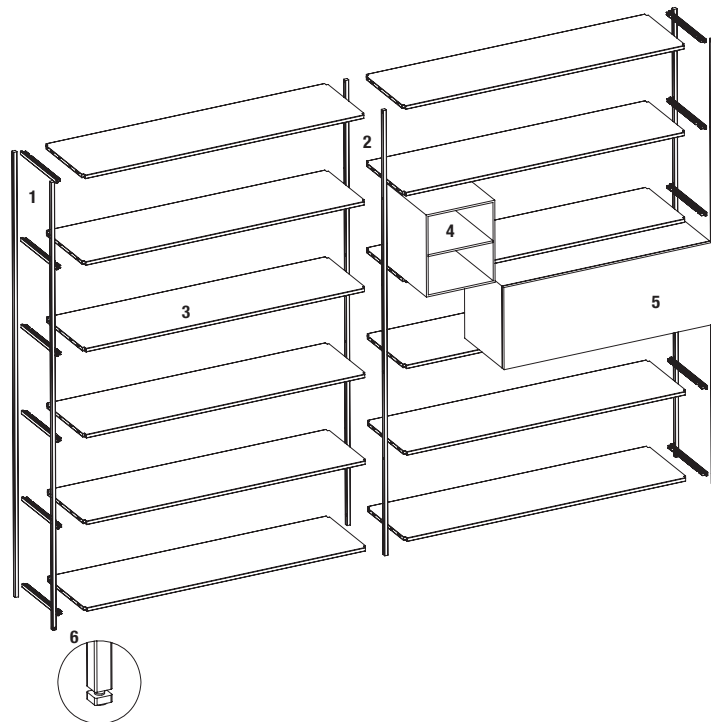

- **Two-drawer units L60 and L90 cm:**

in MD- wood fibreboards, with variable thickness, available in the matt white lacquered micro-goffered finish as well as in the natural black wood variant. Double drawer equipped with push-pull system while opening, with totally-extractable guides.

MINIMA 3.0

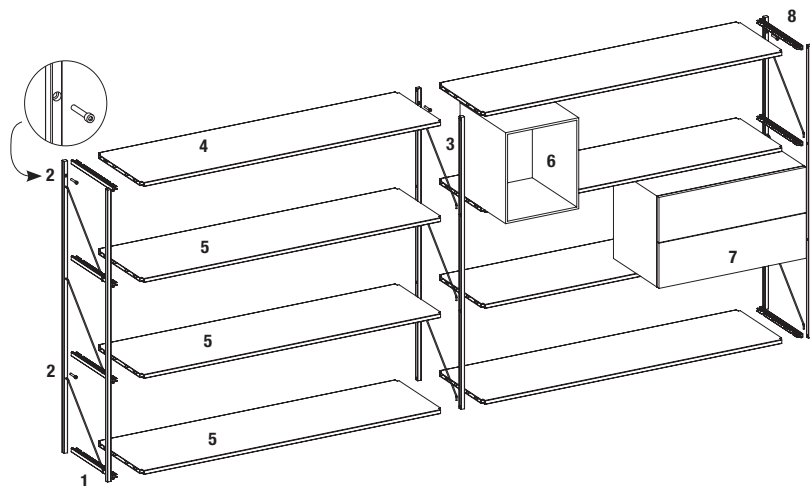

Notes for the assembly

- A drawing of the composition is to be sent together with your order.
- For a proper use, we suggest to position the drawers at the bottom of the unit, or to fix the unit to the wall.
- To use this system (H152 - H188.5 - H225) as a room divider for home and work environments, we recommend to place two units side by side and fix them, so as to obtain a ground depth of 66 cm to ensure a proper stability.
- For a proper assembly, please carefully follow the instructions attached to the product.
- With configurations other than what proposed as well as for special compositions flanked at different heights, please ask the Sales Department to confirm feasibility.

MINIMA 3.0 FREE-STANDING

- 1 free-standing end frame**, completed with fittings
- 2 free-standing intermediate frame**
- 3 shelf**
- 4 open cabinet with partition, L30**
- 5 cabinet**
- 6 adjustable feet**

MINIMA 3.0 HANGING

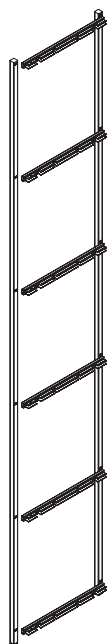

- 1 hanging end frame (L)**, completed with fittings and tie rods
- 2 wall-fixing**
- 3 hanging intermediate frame** with tie rods
- 4 top shelf**
- 5 shelves** (base and intermediate)
- 6 open cabinet, L30**
- 7 two-drawer cabinet**
- 8 hanging end frame (R)**, completed with fittings and tie rods

HANGING

A drawing of the composition with the TV position is to be sent together with your order.

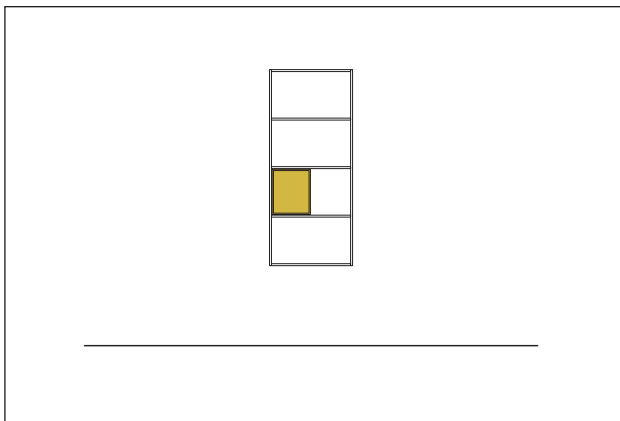

For ground variant only with 120 cm long shelving and in heights 115.5 cm, 152 cm, 188.5 cm and 225 cm, the bookcase can be set up to support a TV set.

With these variants, just one shelf can be removed, thus getting a 71.5x120 cm useful space, that is compatible for up to 46" TV sets (a size that may vary depending on brand and model).
