

## Design

Rodolfo Dordoni

## Description

Chair for outdoor

## Structure

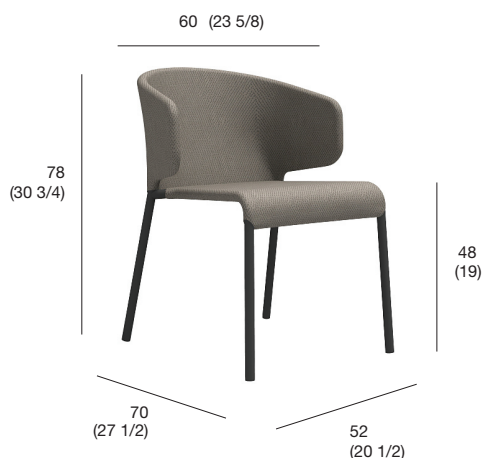

Aluminium covered with an electrostatic powder painting, with a polyester base.

## 3D net

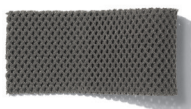

Polyester three-dimensional net, with a pleasant hand-feel, and elevated technical performance: on the right side of the material the weave is more open in order to facilitate the drainage of water, while on the reverse side it is slightly more closely woven to hold the internal padding more effectively. A gap between the two sides gives softness to this fabric and enhances its drain-through capacity, ensuring a quick drying. Excellent color fastness to light. Not fire resistant.

## Weight

Structure: 6 kg

## Finishes

DBL011-01  
3D net grey

DBL011-06  
3D net olive

DBL011-07  
3D net navy

## Maintenance

### Aluminium

It is recommended to wash regularly the product with mild and tepid water. In case a thorough cleaning is needed, use a neutral soap like Universal Cleaner supplied by RODA. Do not ever use solvents, chemical products, abrasive systems such as scouring pads or metal brushes; do not use jet cleaners from a short distance or at high temperature in order not to damage the product.

### 3D net

Clean with water, in order to avoid the deposit of dirt; in the case of obstinate stains, use a neutral fabric detergent as the Universal Cleaner supplied by RODA. Never use abrasive materials, acid substances or aggressive chemical solvents.
